## 6. ARE THEY THAT BAD?

Let's look at this from the cockroach's side of the story!

Despite all the poisons we spray and trays we bait,
given the chance of running into insect-eating enemies
outdoors OR staying in a warm, well-stocked kitchen,
wouldn't you rather be living on easy street as a
human's houseguest?

Is there anything we can learn from the Cockroach about survival?

Original water color by Sam Georgieff

Cockroach King!!!
They were here before us!
They will be here when we are gone!
